Boston Salesroom
41 Pearl Street

Largest Cut Glass Manufacturers In the World

QUAKER CITY CUT GLASS is sold by leading dealers everywhere. Every piece is guaranteed genuine cut glass of highest quality of workmanship, and finish cut on blanks of clearest high percentage Lead Crystal. We use only heavy blanks permitting of very deep cuttings that reflect the greatest sparkle and brilliancy.

This limited catalogue illustrates our staple selling numbers but limited space necessitated omitting some of our largest and most elaborate pieces. Write for prices and illustrations of articles not shown that your customers desire. *We make them.*

Many factories are selling *so called* cut glass at prices lower than labor cost of genuine cut glass. We wish to warn our patrons against pressed acid dipped glass represented and sold as cut glass and court the closest inspection of each and everypiece of *Quaker City Cut Glass.*

Quality the Highest **Prices the Lowest**

Our Cut Glass Won Grand Prize and Gold Medal at World's Fair Exposition, St. Louis, in 1904

Extract from the Official Reports of "Pennsylvania at the World's Fair, St. Louis, 1904."

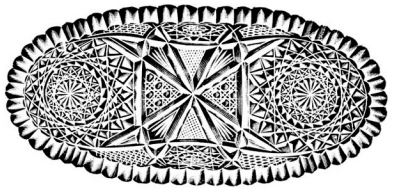

THE variety of shapes and sizes of Cut Glass Articles, the variety of designs, depth of cuttings, technique of workmanship, high lustre of finish, as well as the high quality of lead glass used, all of which are so necessary to produce the refined prismatic brilliancy of high art cut glass, were all notable features of this exhibit, and all combined to win for it the highest, competitive, meritorious award ever granted to any exhibit of its kind.
